Python Language - Basic knowledge / HTML / CSS / JavaScript / StarUML / MySQL / MongoDB / Operating Systems / Linux / Windows / Kali Linux / Docker / Photoshop / PHP / JSON / Postman / sass / Bootstrap / Github / Java / Jira / Web Development / Laravel / Qlik / C# / Figma

STUDENT JOBS

[05/2022]

Security in the Springfest at the European School

HOBBIES AND INTERESTS

Computer Science

I'm particularly interested in artificial intelligence and web development, as I enjoy building smart, interactive systems that solve real-world problems. I'm fascinated by how AI can automate tasks, enhance user experiences, and open new possibilities in technology. At the same time, I appreciate the creativity and logic involved in front-end and back-end web development, and I'm eager to deepen my skills in both areas.

Football

Passionate football player with over 12 years of experience as a goalkeeper. I've played for clubs including R.U. Auderghem, R.R.C. Boitsfort, and KSAV St. Dimpna, and I currently play for ASV Geel. Football has taught me discipline, teamwork, and how to stay focused under pressure, qualities I bring to both my academic and professional life.
